Installation Instructions

1.Preparation of the wall surfaces

Make sure the wall surfaces to be smooth, flat, solid, dry and perfectly clean, we suggest creating a white base-about 2mm

2.Perparation for laying

Score lines on the surfaces to help the sheet posited correctly.

3.Laying

Using the straight of a trowel spres out the adhesive uniformly on the wall, make sure the adhesive all the surface . one time should be not more than 1m2.

A-mosaic mounted on paper

Install the mosaic sheets with the paper side facing towards you and then using rubber float to ensure perfecet adhesion. Wet the paper with a damp sponge and then remove it gently. Take out of any excess adhesive before it dries by a small spatula.

B-mosaic mounted on mest

Press the fiberglass mesh backing directly into the adhesive.

4.Grouting

Using a grout for particular care. For paper * faced mosaic, ensure that tiles are thoroughly cleaned and spread the grout using a rubber float. Make sure no more than 2m2 of area at a time, and then leave the grout drying.

5.Cleaning

Using a damp sponge to remove any grout.

6.Cutting glass mosaic

Using mosaic nippers cut tile by tile.

Using a cutter for cutting the whole sheet.

7.Maintenance

Using normal neutral detergents for daily cleaning:

Using a slightly acidic detergent for special cleaning.
